## Easy Search for Common Information

Find the most commonly searched topics and words.

- Search for Communication (Cell, WiFi, GPS) — Find all Articles related to Communication
- Search for FleetWatcher — Find all articles relating to FleetWatcher.
- Search for HOS — Find all Articles related to HOS
- Search for JBUS — Find all Articles related to JBUS
- Search for POWER — Find all Articles related to Power situations in the vehicle

## Frequently Asked Questions

- Can an ELD be set to 15 minute time intervals?
- Can I change a Driving status to a Non-Driving status?
- Can I fix the inaccurate camera time stamps?
- Does DriverTech's ELD have Anti-Virus software?
- Does DriverTech have a data restoration policy?
- Driving and Motion as Defined via Vehicle Performance and HOS — For Vehicle and Driver Performance: Vehicle is deemed to be driving after it has been at rest and vehicle has moved a 1/2 mile. For HOS: Vehicle is deemed to be driving after it has been at rest and vehicle has moved the distance specified as 'Minimum Drive Distance' in the Web Portal (defaults to 1/10th mile).
- DTNav, typing in a name that starts with "South"
- ELD Library and LibrarySync
  - Can I use the same description with all versions of a specific document? — Concerning document descriptions throughout versions.
  - How can I tell if the unit received the new content or not? — Concerning receipt of the library's files via the unit.
  - How do I set up the document title and description the driver

This Glossary is designed to help describe, understand terms and, acronyms used in the Technical Support website.

## A

**Add** - Inserting a new HOS status onto your HOS logs.

**Aeris** - A cellular provider.

**Audit** - To review HOS logs. Typically by a Department of Transportation representative.

## B

**Backlight** - Keeps the display lit for drivers and users to be able to use the unit at all times of the day

**Bootup - Startup** - The act of the unit powering on and starting from an "off" state.

## C

**Change** - To adjust/edit a log.

**Conversion** - Updating a unit to receive cellular service from a new provider.

**Create** - To insert a new status.

## D

**Detect** - Also, **Auto Detect**, A function of the ELD recognizing that driving has started or stopped driving.

**Display** - screen, touch screen, monitor - The touchscreen of the unit.

**Drive** - The act of driving as logged by the ELD on the HOS logs.

**Driving - For Vehicle and Driver Performance: Vehicle is deemed to be driving after it has been at rest and vehicle has moved a 1/2 mile. For HOS: Vehicle is deemed to be driving after it has been at rest and vehicle has moved the distance specified as 'Minimum Drive Distance' in the Web Portal (defaults to 1/10th mile).**

**DTScan** - Application used in order to use a portable scanner with the TruckPC.

## E

**Email** - Electronic mail sent to and from the

# Customer Support

sees? — How to setup the document title and description that the driver will see in the library.

- If I just upload the content I want the driver to see will it just show the file name for the file? — Regarding file names and descriptions when sending to a driver
- Is there a way to organize the library by a category name to make it easier to find documents? — Concerning library file organization.
- What if I want a file to be in the Library of a specific Truck? — Concerning different library files for specific vehicle groups
- What is the maximum file name length? — Maximum file name length for library articles
- What is the maximum path length? — The maximum path length for a library entry.
- When I need to update a file can I just use the same file name? — Basic guidance on file name updates.
- FleetWatcher, How does it determine which speed reading will be reported? — An explanation of how FleetWatcher reports speed data.
- FleetWatcher, How do I make a form or macro? — A link to instructions concerning how to create a form/macro in FW.
- FleetWatcher, How often do HOS logs and Events and Positions update? — How HOS and Events and Positions are updated on FleetWatcher.
- FleetWatcher, Is There a Basic Template for Terminal Settings Changes? — A basic template for making terminal settings changes in FleetWatcher.
- FleetWatcher, New Customer Setup (Checklist) — Checklist for new customer FleetWatcher setup.
- FleetWatcher, Where do I find the yearly miles driven for a truck/driver? — Enter a very brief description of what this page accomplishes or explains. ex. This is how to create a troubleshooting article.
- FleetWatcher: Can I enter a driver's name containing punctuation?
- FleetWatcher: Why do I see white loading screens and secure content popups? — Fixing white loading screens and security messages in FleetWatcher.
- FleetWatcher. Where are the Reports, and how are they used.
- Health Check
- How are Speeding Alerts Created? — How speeding alerts are created.
- How can a driver combine their on-duty not driving status on an ELD, with

device. Each driver has hers/his own email address assigned to their Driver Code.

**Enforcement** - Typically a Department of Transportation representative.

## F

**FAQ** - Frequently Asked Question

**Featureset** - The features and adjustable settings as defined by the company.

**Froze - Crash** - The display and unit will not respond to any commands. The screen remains stagnant.

**FTP** - File Transfer Protocol. Typically to store files on the ELD via the Library for reference at a later date.

**Fuel** - The ELD keeps mutple pieces of information on the consumption

## H

**HD100** - A type of ELD used to keep track of HOS - Smaller black device used with a separately bought display. Display not included.

**HOS - Hours of Service** - This is used to keep track of the driver's logs and all log calculations are done on the ELD.

**How To Article - How To** - An article that provides step by step instructions on how to complete a task or function in the ELD software.

## I

**Idle** - Vehicle is deemed to be Idling when both the Ignition is ON and Engine RPM is more than 0. Idle is included in various reports such as **Trip Detail** and Alerts can be configured in Settings for Vehicle Groups within the Portal.

**Intelliroute** - Mapping software on the unit provided by Rand McNally

## K

**KB How To Article** - An article detailing how to perform a certain function with or related to the TPC.

**KB Troubleshooting Article** - A troubleshooting article designed to assist drivers and shop technicians in identifying and correcting issues.

**Kernel** - A base level of software that directs the system controller.

## S

- Driving?
- How can I change my Co-Pilot resolution back to normal? — Steps to follow to reset Co-Pilot resolution back to normal
- How can I change the backlight/volume on my TruckPC? — How to change settings of the unit. Test
- How does Daylight Savings Time (DST) work with my ELOGs? — How the unit factors in Daylight Savings Time for Spring and Fall
- How does the TruckPC detect driving? — States how the TruckPC detects driving/movement from the truck
- How does the Truck PC go from Driving to On-Duty automatically?
- How does Unassigned Driving Work? — How unassigned driving works and applies to the driver's logs if applicable
- How do I add remarks to a driving status?
- How do I change the color scheme?
- How do I find my truck number in the DT unit?
- How do I know that DriverTech's ELD is registered with the FMCSA?
- How do I Show My Logs to Law Enforcement? — How to enter and exit Roadside Audit Mode when being pulled over.
- How do I use the Agricultural Exemption
- How long are Hours of Service records retained? — Data Retention policy.
- How to Approve or Reject log edits from the ELD
- How-to change the truck number on your device — When asked to register your device.
- How-to Use the Co-Driver Feature — Describe when someone would need this information. For example "when connecting to wi-fi for the first time".
- How Will the Truck-PC Detect Driving (Starting December 2017)? — How the Truck-PC will detect driving with the new ELD mandate in December 2017.
- If I turn the TruckPC off and start driving, will it record my drive time? — Explains what happens when the unit senses the truck ignition is turned ON
- I received a low memory warning. What should I do? — What to do when receiving a low memory message on the unit
- My touchscreen is not responding. How can I fix it? — A link to the troubleshooting article concerning an unresponsive touchscreen.
- My unit is not communicating, how can I fix it? — Fixing a no communication issue.
- My unit is showing the wrong time. How can I fix it? — Why does my unit show the wrong time?
- The JBUS data information is not recording on my TruckPC. What should I do? — What to do when JBUS is

**Law** - A rule or regulation that has been set in place by FMCSA or other Authorities for drivers

**Library** - Application on the unit for multimedia (i.e videos, pdf, etc.)

**Library Sync** - This is a feature that will automatically happen when the unit is connected to Wi-Fi and there are new files to Sync to the library on the unit

**Line** - Status line. As in: the drive line, the on-duty line, or the off-duty line.

**Log(s)\*** - Typically referring to the driver's HOS logs. Can alternatively refer to information stored on the Truck PC or data compiled and stored in FleetWatcher.

## M

**MCT - TPC, TruckPC** - ELD used to keep track of HOS.

**Message** - An email sent to or from the ELD.

**Messaging** - The function of the ELD that handles emails and workflow.

**Modem** - Hardware in the TPC that provides and regulates cellular and WiFi signals.

**Movement** - Detected motion of the truck by the ELD.

## O

**Officer - DOT/Law Enforcement Officer** - An officer allowed to inspect a driver's logs to confirm that they are staying compliant with all FMCSA and driving rules and regulations

**On-Duty** - The status of the driver whenever they are working or driving.

## P

**Patch** - A software update that upgrades, fixes or, changes existing software on the unit.

**Plan** - Setting group determined by your company. Typically in reference to navigation programs.

**Power** - All devices are utilizes a 12 volt system. A unit that is "powered-up" is considered to be "on" while a "powered-down" unit is "off".

## R

**Roadside** - Used in reference to being in the act of being pulled over by law enforcement. Also, **Roadside Audit**, which is the mode all drivers are strongly recommended to be in when pulled over.

## S

**Scanning** - Function of the scanner hardware and scanning software on the ELD to scan images.

**Screen - touch screen, display, monitor** - The touch screen of the unit

**Sensor** - A device that detects and records data.

**Settings** - TPC options configurable by the company via FleetWatcherUser Configurable to change how specific features on the unit works

**Sprint** - Cell provider for the cellular communication on the unit

**Startup - Bootup** - The act of the unit powering on and starting from an "off" state.

## T

**Time** - This time is showing the time of the terminal this unit is assigned to

**Timers** - Timers that keep track of hours and countdown before the driver goes into violation

**TND** - ELD used to keep track of HOS

**Touchscreen - Display** - The interactive display of the TPC unit.

**TPC/TruckPC** - ELD used to keep track of HOS

## U

**USB - Universal Serial Bus** - This is the type of port used to connect external devices

## V

**Volume** - The sound level of the audio coming from the unit's speakers.

## X

**Xerox** - A company that produces scanners that may be used with some ELD devices.
