Driver Administration

Drivers feature allows you to create and edit the log-in credentials your drivers use to sign onto their in-cab device and driver portal, as well as the driver name that appears in the portal on reports, and within the Mail and Mapping applications.

- Name
- Logon
- Employee Id
- Settings Group
- Terminal

Name

This name will appear in the portal

Logon

This will be the log-in the driver uses to sign onto the in-cab unit

Employee Id

This will be the log-in the driver uses to sign onto the in-cab unit

Settings Group

Selected settings group that the driver is assigned to.

Terminal

Terminal that the driver is assigned to.
