This Glossary is designed to help describe, understand terms and, acronyms used in the Technical Support website.

A

Add - Inserting a new HOS status onto your HOS logs.

Aeris - A cellular provider.

Audit - To review HOS logs. Typically by a Department of Transportation representative.

B

Backlight - Keeps the display lit for drivers and users to be able to use the unit at all times of the day

Bootup - **Startup** - The act of the unit powering on and starting from an "off" state.

C

Change - To adjust/edit a log.

Conversion - Updating a unit to receive cellular service from a new provider.

Create - To insert a new status.

D

Detect - Also, **Auto Detect**, A function of the ELD recognizing that driving has started or stopped driving.

Display - [screen](#), [touch screen](#), [monitor](#) - The touchscreen of the unit.

Drive - The act of driving as logged by the ELD on the HOS logs.

Driving - For Vehicle and Driver Performance: **Vehicle is deemed to be driving after it has been at rest and vehicle has moved a 1/2 mile. For HOS: Vehicle is deemed to be driving after it has been at rest and vehicle has moved the distance specified as 'Minimum Drive Distance' in the Web Portal (defaults to 1/10th mile).**

DTScan - Application used in order to use a portable scanner with the TruckPC.

E

Email - Electronic mail sent to and from the device. Each driver has hers/his own email address assigned to their Driver Code.

Enforcement - Typically a Department of Transportation representative.

Frequently Asked Questions

- [FleetWatcher, How does it determine which speed reading will be reported?](#) — A n explanation of how FleetWatcher reports speed data.
- [FleetWatcher, How do I make a form or macro?](#) — A link to instructions concerning how to create a form/macro in FW.
- [FleetWatcher, How often do HOS logs and Events and Positions update?](#) — How HOS and Events and Positions are updated on FleetWatcher.
- [FleetWatcher, Is There a Basic Template for Terminal Settings Changes?](#) — A basic template for making terminal settings changes in FleetWatcher.
- [FleetWatcher, New Customer Setup \(Checklist\)](#) — Checklist for new customer FleetWatcher setup.

10. N-O

F

FAQ - Frequently Asked Question

Featureset - The features and adjustable settings as defined by the company.

Froze - **Crash** - The display and unit will not respond to any commands. The screen remains stagnant.

FTP - File Transfer Protocol. Typically to store files on the ELD via the Library for reference at a later date.

Fuel - The ELD keeps mutple pieces of information on the consumption

H

HD100 - A type of ELD used to keep track of HOS - Smaller black device used with a separately bought display. Display not included.

HOS - **Hours of Service** - This is used to keep track of the driver's logs and all log calculations are done on the ELD.

How To Article - **How To** - An article that provides step by step instructions on how to complete a task or function in the ELD software.

I

Idle - Vehicle is deemed to be Idling when both the Ignition is ON and Engine RPM is more than 0. Idle is included in various reports such as [Trip Detail](#) and Alerts can be configured in Settings for [Vehicle Groups](#) within the Portal.

Intelliroute - Mapping software on the unit provided by Rand McNally

K

KB How To Article - An article detailing how to perform a certain function with or related to the TPC.

KB Troubleshooting Article - A troubleshooting article designed to assist drivers and shop technicians in identifying and correcting issues.

Kernel - A base level of software that directs the system controller.

L

Law - A rule or regulation that has been set in place by FMCSA or other Authorities for drivers

Library - Application on the unit for multimedia (i.e videos, pdf, etc.)

Library Sync - This is a feature that will automatically happen when the unit is connected to Wi-Fi and there are new files to Sync to the library on the unit

Line - Status line. As in: the drive line, the on-duty line, or the off-duty line.

Log(s)* - Typically referring to the driver's HOS logs. Can alternatively refer to information stored

Frequently Asked Questions

- I received a low memory warning. What should I do? — What to do when receiving a low memory message on the unit
- My touchscreen is not responding. How can I fix it? — A link to the troubleshooting article concerning an unresponsive touchscreen.
- My unit is not communicating, how can I fix it? — Fixing a no communication issue.
- My unit is showing the wrong time. How can I fix it? — Why does my unit show the wrong time?
- The JBUS data information is not recording on my TruckPC. What should I do? — What to do when JBUS is not recording on the unit
- What are the exceptions to the HOS regulations?
 - How do the HOS Timers calculate?
- What are the most commonly used Idle fields? — Enter a very brief description of what this page accomplishes or explains. ex. This is how to create a troubleshooting article.
- What baud are DriverTech units set up for? — What baud for DriverTech units?
- What can I do if my unit cannot send or receive messages? — Troubleshooting messaging issues.
- What constitutes a long/mid/short idle in the reporting? — Idle times explained.
- What does a driver need to do when they see diagnostic errors?
- What does DriverBase.BDeleted mean in Change Auditing? — Defining DriverBase.BDeleted in the Change Auditing Report
- What does the driver do on their end to register a DT unit?
- What does Violation 128 mean?
- What do the icons in the Log Overview report mean?
- What is "Yaw Control via Engine" and "YC Brake Control"? — An explanation of yaw control via engine and YC brake control.
- What is automatically recorded by the ELD?
- What is DriverTech's recommendation as far as Hydra or Deutsch cables?
- What is DriverTech's recommendation as far as Yard Move and Personal Use.
- What is Logging Malfunction (2)? — An explanation of Logging Malfunction (2)
- What is Logging Malfunction (3)? — An explanation of Logging Malfunction (3)
- What is Logging Malfunction (4) ?
- What is Required to Trigger an Auto-Arrival (Workflow)? — What triggers an auto-arrival in workflow?
- What is the FMCSA's definition of Harassment?
- What is the RMA diagnostic fee?
- What new information is on the Drive-Safe screen with 6.01.04+? — Breakdown of new Drive-Safe screen with DTCORE 6.01.04+
- What should I show a DOT officer while being inspected? — Enter a very brief description of what this page accomplishes or explains. ex. This is how to create a troubleshooting article.
- What triggers an event that is recorded by the camera?
- When do my logs/current totals update? — Explains when the logs and current totals update in FleetWatcher
- When I press anywhere on the screen, only the bottom left corner lights up. How do I fix it? — What to do when only the symbol key lights up when touching anywhere on the screen
- When I touch anywhere on the screen, only the bottom left corner lights up. How do I fix it? — What to do when only the

on the Truck PC or data compiled and stored in FleetWatcher.

M

MCT - TPC, TruckPC - ELD used to keep track of HOS.

Message - An email sent to or from the ELD.

Messaging - The function of the ELD that handles emails and workflow.

Modem - Hardware in the TPC that provides and regulates cellular and WiFi signals.

Movement - Detected motion of the truck by the ELD.

O

Officer - DOT/Law Enforcement Officer - An officer allowed to inspect a driver's logs to confirm that they are staying compliant with all FMCSA and driving rules and regulations

On-Duty - The status of the driver whenever they are working or driving.

P

Patch - A software update that upgrades, fixes or, changes existing software on the unit.

Plan - Setting group determined by your company. Typically in reference to navigation programs.

Power - All devices are utilizes a 12 volt system. A unit that is "powered-up" is considered to be "on" while a "powered-down" unit is "off".

R

Roadside - Used in reference to being in the act of being pulled over by law enforcement. Also, **Roadside Audit**, which is the mode all drivers are strongly recommended to be in when pulled over.

S

Scanning - Function of the scanner hardware and scanning software on the ELD to scan images.

Screen - touch screen, display, monitor - The touch screen of the unit

Sensor - A device that detects and records data.

Settings - TPC options configurable by the company via FleetWatcherUser Configurable to change how specific features on the unit works

Sprint - Cell provider for the cellular communication on the unit

Startup - Bootup - The act of the unit powering on and starting from an "off" state.
