CoPilot is Showing UTC time

CoPilot is Showing UTC time

Problem:

Co-Pilot's time zone is set to UTC.

Solution:

1. This is a setting in CoPilot, and will need to be configured within the application.
2. If you need help configuring the CoPilot application, please contact ALK by going to:
3. This link (http://copilotpro.com/us/contact/) and filling out their form.
4. You can also reach them over the phone at: 609.683.0220 or 877.573.0138
