

What are the most commonly used Idle fields?

Question:

What are the most commonly used Idle fields?

Answer:

Idle Time is calculated when the Ignition is on and the Engine is running (RPM > 0).
The most commonly used Idle fields are listed below.

- **Idle Times:**
 - **Long Term Idle:**
 - Records ALL idling more than 90 minutes
 - **Mid Term Idle:**
 - Records ALL idling within 15-90 minutes
 - **Short Term Idle:**
 - Records ALL idling less than 15 minutes
 - **Parked Idle:**
 - Records ALL idling while the parking brake is ON
 - **Interstop Idle:**
 - Records ALL time spent at Stop signs/Stop lights
 - **Over Idle:**
 - Records ALL time spent "Over Idling"
 - "Over Idle" time is a customizable time set by the company
 - This ":
- **Fuel:**
 - **Fuel:**
 - Records ALL fuel used by the truck
 - **Idle Fuel:**
 - Records ALL fuel used while the truck is idling
 - This includes ALL types of idling
 - **Parked Idle Fuel:**
 - Records ALL fuel used while idling while the parking brake is ON
 - **Drive Fuel:**
 - Records ALL fuel while the unit is in Drive Mode
 - Drive Mode occurs after the truck drives ½ mile
 - **Motion Fuel:**
 - Records ALL fuel used while the truck is in motion
