

FleetWatcher, Where do I find the yearly miles driven for a truck /driver?

Question:FleetWatcher

Where could I find the yearly miles driven by a truck/driver?

Answer:

This information can be found in FleetWatcher. To locate this report, follow these steps:

- Go to "Reports"
- Select "Driver Performance"
- Select "Driver Detail"

The screenshot displays the FleetWatcher web application interface. The top navigation bar includes 'Management', 'Reports', 'Compliance', and 'Mail'. Under 'Management', the 'Driver' tab is selected, showing a dropdown menu with options like 'Vehicle/Driver Info', 'Logs and Screenshots', 'Events and Positions', 'Trailer Events', 'Trip Details', 'High Resolution Positions', 'Landmark Events', 'Fuel Purchases', 'State Mileage', 'Regional Crossing', 'Manual Mileage', 'Deceleration', 'Vehicle JBus Faults', 'Vehicle Inconsistency', 'DTScan', 'Driver Performance', and 'Vehicle Performance'. The 'Driver Performance' option is highlighted, and its sub-menu is open, showing 'Driver Summary' and 'Driver Detail' (which is highlighted with a red box). Below the navigation bar, the 'Information' tab is selected, showing a form for 'Brad Support, BRAD' with fields for VIN, Odometer, Location, Last GPS Time, Last Msg Time, Power Status, Logged On, Ignition, Last Status, Version, Transport, Serial Number, Terminal, and Groups. The 'Reports' tab is also visible, showing a dropdown menu with options like 'Day', 'Week', 'Month', and 'Year' (which is selected). The 'Get Results' button is visible at the bottom right of the 'Reports' section.

- Select Driver
- Check the box that says "Year"
- Click on the Calendar icon
- Select "Last Year" or "Specific Year" to define your search
- Press "Get Results"

After these steps have been completed, a report of all the yearly totals for that year will show up. More information columns can be provided by clicking on "Customize Columns"
