Management and Settings

Current Documentation available for various product features and associated detail:

- Change Auditing — The Audit Report allows you to view any settings or information changes made by users of your Rand McNally Connect web portal account. This may include safety managers, dispatchers, administrators, and more.
- Driver Administration — Drivers feature allows you to create and edit the log-in credentials your drivers use to sign onto their in-cab device and driver portal, as well as the driver name that appears in the portal on reports, and within the Mail and Mapping applications.
- DTVideo — Request and View/Download DTVideo
- Forms and Macros — Forms / Macros are an industry standard way of providing structured templates to ensure both consistency and reduced communication costs when messaging Drivers
- Manager Administration — The Administration feature allows you to create and edit information regarding your fleet managers.
- Patching — From time to time, Rand McNally will update the software version on your company's in-cab devices. The Patching feature allows you to view information related to any software updates that occur.
- Software Inventory — Provides detail of the software that is installed on the devices in the fleet
- System Settings
    - Authority Groups — Authority Groups provide ad-hoc association of Vehicles and Drivers for specific Operational Authorities
    - Company Groups — Company Group Settings allow grouping of divisions of an organization
    - Driver Groups — Settings which apply to categories of Drivers
    - General Settings — General Settings apply to the entire DataStore
    - Global Email Alerts — Hidden from page, only used for excerpt snippet in parent page link
    - Manager Roles — Manager Roles support authorization or restriction of what a Manager may perform
    - Terminal Groups — Terminal Groups provide the Drivers Terminal for HOS, Authority Configuration, and Vehicle association for Hierarchy
    - Vehicle Groups — Settings which apply to categories of Vehicles
    - Vehicle Type Groups — Settings which apply to categories of Vehicle Types
- Vehicle Administration — The Vehicles feature displays information regarding your company's vehicles.
- Weigh Station Bypass Administration — provides Drivewyze® PreClear Configuration and Administration for your Fleet and Vehicles
