

# Froze While Booting Up

## Problem:

The unit is locking up while it is trying to start up

## Solution:

1. **Do not** unplug the screen, remove, or unplug power without a DriverTech support technician on the phone as this may cause further damage.
2. Press and hold the On/Off button for 30 seconds or until the unit turns off.
3. If you are a shop technician, re-imaging should resolve the issue.
4. If unit does not turn off using the On/Off button, please call DriverTech Technical Support: 866-331-8785

Drivertech's Technical Support Line: 866-331-8785
