

Software Inventory

Provides detail of the software that is installed on the devices in the fleet such as:

- DateTime of the latest ELD update
- Dynamic List of all software ever installed any ELD in the account
- Version number of all software installed on the ELD

The feature also includes the ability to display only specific software components - accessible via the [customize columns] button

Screenshot of a page of results ([click to enlarge](#)):

Device ID	Device Name	Software Name	Version	Last Update Date
123456789	Truck 1	DT Scan	1.0.0	2017-10-26
123456789	Truck 1	Magikit	1.0.0	2017-10-26
123456789	Truck 1	ALK Copilot	1.0.0	2017-10-26
