4. Touch <Select repair status>

The screenshot shows a mobile application interface for a DVIR form. At the top, there are buttons for '<< Back' and 'Delete'. Below these are two tabs: 'Certify' and 'Defects'. The form is divided into three sections: 'Reported by Brad Support - 09:28 09/30' with a text field containing 'Trailer(s)#: 4321'; 'Repair' with a button labeled '<Select repair status>' highlighted by a red box and a 'Certify' button; and 'Review' with a text field containing 'The vehicle is in satisfactory condition' and a 'Certify' button. At the bottom, there is a status bar with 'Menu', 'HQS 11:00', a clock icon, a signal icon, '09:35', and a battery icon.

5. Situations will vary. Touch No Repairs Needed or Repairs made. For this example, we'll select Repairs made

The screenshot shows a mobile application interface for a 'Defect repair status' screen. At the top, there are buttons for '<< Back', 'Defect repair status', '<<', '1/1', and '>>'. Below these are two buttons: 'No repairs needed' and 'Repairs made'. At the bottom, there is a status bar with 'Menu', 'HQS 10:52', a clock icon, a signal icon, '09:51', and a battery icon.

6. Touch Certify

The screenshot shows a mobile application interface for a DVIR form. At the top, there are buttons for '<< Back' and 'Delete'. Below these are two tabs: 'Certify' and 'Defects'. The form is divided into three sections: 'Reported by Brad Support - 09:28 09/30' with a text field containing 'Trailer(s)#: 4321'; 'Repair' with a button labeled 'Repairs Made' and a 'Certify' button highlighted by a red box; and 'Review' with a text field containing 'The vehicle is in satisfactory condition' and a 'Certify' button. At the bottom, there is a status bar with 'Menu', 'HQS 10:50', a clock icon, a signal icon, '09:52', and a battery icon.
