

DTNav, typing in a city name that starts with "South"

Q: Why are my search results stuck when typing in "South" to start my City search in DTNav?

A: There is a City in Missouri called "Southampton" that has no space in it.

1. Using the example City, South San Francisco: start typing in "South"
2. It will take you to this screen. Tap the Back button at the top-right

3. Back in the City screen, tap the Space key

4. A list of cities with a space after "South" will now appear.

5. You can now select the desired City/State
